Case Study: Palos Verdes Water Polo Club

# Consolidated 3 platforms into one cutting costs by 66% with SportNinja

## The Challenge

Palos Verdes Water Polo Club faced a **time-consuming and costly** registration process that relied on multiple disconnected platforms, leading to inefficiencies and manual work. Their biggest challenges included:

- Managing **three different platforms**, each with its own annual license fees.
- Manually transferring player and team data between systems.
- Copying **payment records** from one system to Excel before updating another.
- **Reconciling unpaid fees** across multiple platforms, adding administrative burden.

### The Solution: SportNinja Registration

By consolidating all registration processes into **SportNinja**, the club eliminated the need for multiple platforms, significantly reducing costs and administrative workload:

One Unified System – Eliminated three different platforms and streamlined workflows.

Æffortless Registration Management – A single dashboard provides real-time updates on registrations and finances.

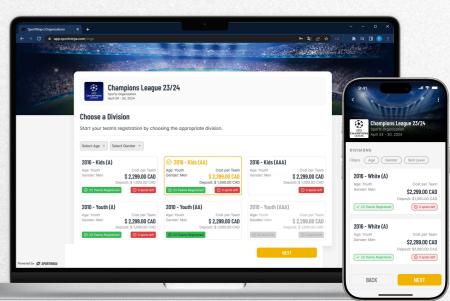

Smart Overflow & Waitlist Management – SportNinja's bucket system simplifies handling waitlists, waivers, and overflow teams.

#### The Result

Reduced Admin Time – Saved 5-10 hours per week on manual tasks.

**Lower Costs** – Cut annual software expenses by over 60%.

Better Communication – Improved messaging with players and parents.
Streamlined Payments – Faster, more efficient collection and reconciliation of registration fees

#### **Customer Testimonial**

"I was pleasantly surprised by how intuitive the platform was. Seeing how quickly SportNinja responded with support was a breath of fresh air!" **Palos Verdes Water Polo Club**
